Confused by direct to pharmacy?

Much confusion has been created by the decision of several manufacturers to restrict the supply of their drugs. Mawdsleys have responded to this by setting up a straight-forward Redirect scheme which will save you time and money.

Follow these easy steps to redirect:

1

Sign up to Redirect then order all your products electronically through Mawdsleys including Direct to Pharmacy products

2

If Mawdsleys stock the product we will supply

if not

3

Mawdsleys will then redirect your order to the most appropriate source:

If we can't supply the DTP line, we will automatically switch to a more profitable equivalent

If a more profitable equivalent is not available, we will automatically forward the order to the wholesaler of your choice

You will be notified of any lines being redirected and when they will be delivered so you can keep your customers informed

Mawdsleys Redirect

- the Mawdsleys order factoring system
