Building partnerships in healthcare

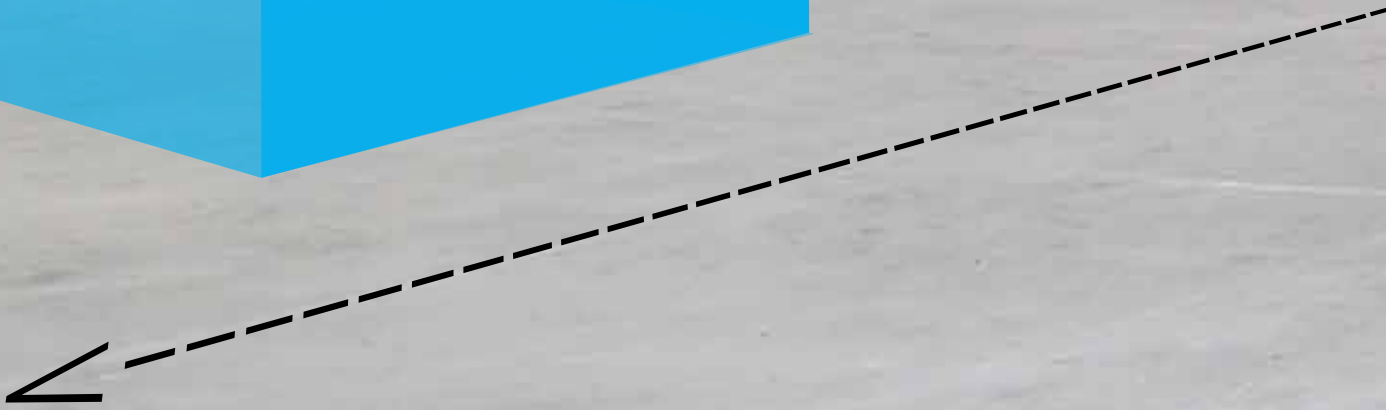

A division of Mawdsleys

whether you need this much

or only this much

MPW specialises in providing third party logistics (3PL) and pre-wholesale services to small and medium sized pharmaceutical companies.

As part of the Mawdsleys Group, MPW shares the same commitment to excellence that has gained Mawdsleys its reputation as a leading partner to the pharmaceutical industry and UK healthcare sector.

---you don't have to pay for this much---

Logistics and more

MPW understand that business growth can be a challenge. Finding a partner you can trust to provide cost effective, bespoke logistic solutions and help drive your business forward needs careful consideration.

ready to move your business

s forward

Quality and experience

With their vast experience of global pharmaceutical networks and close working partnerships with the NHS and other healthcare providers, MPW are ideally placed to provide the fastest route to market for your products.

All MPWs' storage facilities are fully compliant to the latest MHRA and EU standards for Good Distribution Practice (GDP) including controlled environments for both ambient and cold chain products. MPW clients also have access to EU Qualified Persons working across the Mawdsleys group.

you get the same high quality service ----->

whatever your scale of business ----->

Flexibility and service

MPW's flexibility allows us to create the ideal answer to your storage and distribution needs from large scale, fully integrated solutions to simple pallet storage. With over 220,000sq ft of licensed space you can rest assured that your products are in good hands whatever level of service you need.

Clients are able to choose any combination from our extensive range of services:

Core Services

- Energy efficient facilities reducing costs

Added value and support

Regulatory Services

MPW have an in house team that can take care of all your regulatory needs:

- Site visits and auditing
- Wholesale licence applications
- Attending competent authority inspections
- Writing and amending SOP's
- Writing and amending technical agreements
- Regulatory advice (UK, FDA & EMEA)
- Qualified Person (QP) services including batch release
- Liaison with competent authorities on all aspects of compliance
- Analytical testing
- GDP/GCP/GMP
- Pharmacovigilance

Information Testing Services

Through our associate company, Leeds University spin-off, Luto Research Ltd, MPW can offer:

- Patient Information Leaflet (PIL) readability testing
- Translation and clinical validation of PIL's for foreign markets
- Usability testing
- Clinical trial information testing

Clinical Trial Services

Mawdsleys also have a dedicated clinical trial logistics team who can manage the distribution and regulatory aspects of your trials.

Going one step further

MPW understand that you need more than just logistics – you need a partner who understands your needs and more importantly, your customers' needs. Dedicated account handlers will always go one step further to ensure you and your customers never feel neglected.

Here's what some of our customers have to say:

MPW have proved themselves to be highly flexible in the way that they have tailor made the service that they offer to Aspire. Furthermore, the MPW team frequently go above and beyond the call of duty to ensure that customer requirements are appropriately handled in a timely and effective manner on our behalf. I would have no hesitation in recommending MPW as a pharmaceutical distribution service to hospitals and pharmaceutical companies.

Julie Green, Operations Director
Aspire Pharma Ltd

I wouldn't hesitate to recommend MPW to any small or medium pharmaceutical company looking for a reliable logistics partner. I have worked with them now for many years and they have proven time and time again that they are willing to go the extra mile to get our products to our customers. Because of their size they are able to offer a flexible but highly reliable solution.

Duncan Morris
Dallas Burston Healthcare Group

"MPW have provided us with an outstanding logistics service for the last four years. Orders are processed efficiently and delivered on time, which is important to us and our customers. We would recommend their services highly."

Len Cretney,
Stragen UK
